

Mathematical Symbols

Press/hold Alt while typing the numbers on the keypad (with Num Lock on). Symbol appears when you release the Alt Key. Many of these seem to automatically use the Cambria math font.

8704	\forall	for all	8756	\therefore	therefore
8706	∂	partial differential	8773	\cong	approximately equal to
8707	\exists	there exists	8776	\approx	almost equal to = asymptotic to
8709	\emptyset	empty set = null set = diameter	8800	\neq	not equal to
8710	Δ	delta	8801	\equiv	identical to
8711	∇	nabla = backward difference	8834	\subset	subset of
8712	\in	element of	8835	\supset	superset of
8713	\notin	not an element of	8836	$\not\subset$	not a subset of
8715	\ni	contains as member	8838	\subseteq	subset of or equal to
8719	\prod	n-ary product = product sign	8839	\supseteq	superset of or equal to
8721	\sum	n-ary summation	8853	\oplus	circled plus = direct sum
8730	$\sqrt{\quad}$	square root = radical sign	8855	\otimes	circled times = vector product
8733	\propto	proportional to	8869	\perp	orthogonal to = perpendicular
8734	∞	infinity	178		Superscript two ²
8736	\sphericalangle	angle	179		Superscript three ³
8743	\wedge	logical and = wedge	0215	\times	
8744	\vee	logical or = vee	0247	\div	
8745	\cap	intersection = cap	0135	\ddagger	
8746	\cup	union = cup	0177	\pm	
8747	\int	integral
